

TECHNICAL ADVANTAGES

External Antenna: Improves locating performance

GENERAL SPECIFICATIONS

Power: 9V - 32 V DC

PHYSICAL SPECIFICATIONS

Size: 5.78" x 2.99" x 1.44"
143mm x 76mm x 38mm

Weight: 8.0 ozs (0.23 kgs)

Assembly: Injection molded plastic

GPS SPECIFICATIONS

Receiver: L1 (1575.42 MHz) frequency, C/A code

PHYSICAL FEATURES

- Allows covert installation
- Compact, lightweight, durable
- Rugged, water resistant

Equipment Monitoring

The *Advantage Commercial* is ideal for tracking, monitoring and securing equipment and vehicles. This powerful device utilizes a highly sensitive GPS (E-GPS) system that identifies equipment in remote and geographically challenging locations.

Daily run time meter statistics, tamper detection notification, location identification, and virtual fences (vFence) transmit valuable information that improves maintenance efficiency while protecting valuable assets. *Advantage Commercial* and Longview Advantage's highly sophisticated, easy to use web-based applications provide a superior, cost-effective tracking/monitoring solution.

The *Advantage Commercial* is loaded with features and is easy to install and use. Detailed reports and immediate electronic notification provides asset management and security.

Equipment Monitoring Features

- Hour Meter
- Tamper Detect – Detects tampering or a power disconnect
- On-demand real time polling gives current status and position

When theft happens, our 24/7 Alarm and Recovery Centre immediately begins tracking the asset. Simultaneously, the owner and relevant law enforcement authorities are alerted. In most cases, property is recovered in less than one hour.
